EXTRACON STD

Extracon is one of the original and most universally accepted chemical release agents produced in the United Kingdom. It is specifically formulated for use on most types of formwork to give the optimum release and quality of concrete finish.

BENEFITS

- Ideal for use on timber and steel formwork.
- Provides a clean positive release even in intricate and difficult casting conditions.
- Reduces labour costs, cleaning time and possible damage to formwork.

Extracon's chemical reaction promotes a uniform matt, stain free concrete surface with reduced incidence of blow holes and surface blemishes.

COVERAGE: 25 to 60 m²/litre dependant upon type of form, porosity, texture of surface and ambient temperature.

BUILDSPAN CODE	Size
EXTSTD25	25ltr
EXTSTD210	210ltr

ADOMAST
Building Chemicals Limited

1000ltr IBC available to order on request.

EXTRACON DS

Extracon DS is a chemical release agent specifically formulated to give easy release of formwork and high quality surface finishes to concrete. Equally suitable for use with form liner systems.

BENEFITS

- Extracon DS is suitable for use with all types of formwork.
- It is a suspension and sediment free, highly mobile liquid, which can be used in very fine sprays without clogging the jets.
- Has no unpleasant odour even when using a fine fog spray.

COVERAGE: 25 to 60 m²/litre dependant upon type of form, porosity, texture of surface and ambient temperature.

EXTRACON XS

Extracon XS is a chemical release agent specifically formulated to give easy release of formwork and high quality surface finishes to concrete. Fast drying capability.

BENEFITS

- Extracon XS is suitable for use with all types of formwork.
- It may be applied immediately prior to casting, or treated forms may be left until apparently dry. Widespread experience shows that treated forms can be exposed to weather for 14 days without re-treatment to give the usual excellent results.
- Has no unpleasant odour even when using a fine fog spray.
Drastically reduces the incidence of blowholes, surface blemishes and staining.

COVERAGE: 25 to 60 m²/litre dependant upon type of form, porosity, texture of surface and ambient temperature.

EXTRACON PLASTRIP S

Extracon Plastrip S is a chemical release agent specifically formulated to give easy release of plastic and thermoplastic mould liners providing high quality finish to concrete.

BENEFITS

- Extracon Plastrip S is suitable for use on plastic mould liners with excellent results.
- Very economic coverage rates can be obtained without difficulty.
- Provides quick positive release of formliners, reducing labour costs and damage to formwork and liners.

COVERAGE: 30 to 50 m²/litre dependant upon material type, porosity, texture of surface and ambient temperature.
